

Get the Wynd app

You're halfway there!
Get the Wynd app to unlock all of Wynd's features. See more details about your air quality, control Wynd remotely, and see how used up your filter is. To download it, go here on your phone or tablet:
hellowynd.com/app

Turn Wynd on and off

Tap the power button on the Purifier to turn it on and off:

Tap the button on the side of the Tracker to turn it on and off (the Purifier's button doesn't effect the Tracker):

Adjust airflow

Turn the top control ring to adjust airflow.

Monitor your air

The Wynd Tracker senses the air quality.

Leave it docked, to charge while it tracks the air...

Or take it out to monitor air quality on the go.

The Tracker's light color indicates air quality. To see detailed info about these colors, visit hellowynd.com/instructions.

Use Auto mode

Tap the Auto button on the Purifier to turn on Auto mode:

Auto mode automatically adjusts the airflow level based on the air quality (as sensed by the Tracker).

Use the kickstand

1. Snap the kickstand into Wynd's attachment points.

2. Expand the kickstand to funnel clean air at an angle.

Night Mode

Double tap the power button on the Purifier to turn on Night mode:

Double Tap the button on the side of the Tracker to turn on Night mode:

Night mode turns off the light to help improve sleep quality.

Charge Wynd

Plug in the supplied USB-C cable to the slot in the back of Wynd.

Make sure to use our supplied cable to protect Wynd from bad third-party cables!

To charge the Tracker, dock it in the Purifier and turn on the Purifier.

Change the filter

1. Screw off the bottom cap.

2. Take out the old filter and insert the new one.

3. Screw the bottom cap back in.

The filter should last an average of 3 months, and the app provides the filter lifetime. Order more through the app or at hellowynd.com.

Purifier or Tracker not working right?

Try resetting your devices to see if it fixes the problem. Here's how:

Hold down the Purifier's power button for 10 seconds.

Place a pin (or other sharp object) into the tracker's reset hole.

One Last Thing

Charge the Purifier for at least 4 hours before using it unplugged. You can still use it while it's charging!

If you twist off the bottom cap to check out the filter, make sure and twist it back on **tightly**. If it's not securely in place, the Tracker won't be able to charge correctly.

Detailed instructions:

hellowynd.com/instructions

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED Statement:
This device complies with ISED licence-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Other Statement:
The charging cable provided is a supplemental free item and is not part of the Wynd product purchased.

Le présent appareil est conforme aux CNR d'ISED applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

ISED Radiation Exposure Statement:
This equipment complies with ISED RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet appareil est conforme aux limites d'exposition de rayonnement RF ISED établies pour un environnement non contrôlé.

Cet appareil ne doit pas être co-implanté ou fonctionner en conjonction avec toute autre antenne ou transmetteur.

Operating Frequency Band:
Air purifier Unit: 2402-2480 MHz
Sensor Unit: 2404-2480 MHz
Max. OF Transmitt power:
Air purifier Unit: 0.41dBm
Sensor Unit: -4.69dBm

The Wynd Purifier transmits data to the mobile app and Tracker, and the mobile app transmits data to the Wynd Purifier, but the Tracker can only transmit data to the Wynd Purifier. This means that the Tracker can only work with the Wynd Purifier.
