Charger is included inside

See back of label for User Manual

Quick Start:

Step 1: Charge

Charge the LYT bottle cap fully before use. Press activation button to indicate battery life.

Green light indicates 40% - 100%

Orange light indicates 11% - 39%

Red light indicates 1% - 10%

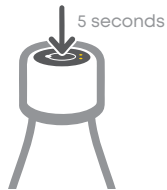

Step 3: Fill

Fill your bottle with tap water. Note: not suitable with water from stream or a river.

Step 2: Activate Self-Cleaning

Press and hold the power button for 5 seconds to activate self-cleaning mode. LED flashes three times to indicate self-cleaning mode is active. Once self-cleaning is activated, cap will turn-on automatically every hour for a few seconds to keep your bottle odor-free.

Step 4: Cap

Screw on the LYT bottle cap and tighten for proper seal.

Step 5: Purify

Gently press button on top of cap 2 times to purify the water. This destroys 99.9% of e.coli in 3 minutes from your drinking water. Product not tested on viruses and pathogens.

Safety precautions:

- Do not irradiate eyes with UV-C light
- Not intended or not suitable for use by children
- Do not activate the cap without installing on the bottle
- Use only with tap water or transparent water source free of debris. Not suitable for water from river or stream
